The Chevrolet Corvette (C1) is the first generation of the Corvette sports car produced by Chevrolet. It was introduced late in the 1953 model year, and produced through 1962. It is commonly referred to as the "solid-axle" generation, as the independent rear suspension did not appear until the 1963 Sting Ray.

1953 Corvette Overview. After the incredible success of the prototype at the 1953 Motorama in New York City, Corvette went from being the fantastic concept car designed by Harley J. Earl to an, (as yet unrealized), production car that was already commanding great deals of attention. Hoping to capitalize on the favorable public opinion and the overwhelmingly positive reviews by the press ...

The 1963 Sting Ray production car's lineage can be traced to two separate GM projects: the Q-Corvette, and perhaps more directly, Mitchell's racing Sting Ray. The Q-Corvette, initiated in 1957, envisioned a smaller, more advanced Corvette as a coupe-only model, boasting a rear transaxle, independent rear suspension, and four-wheel disc brakes, with the rear brakes mounted inboard.
