### Atlas Copco Electronic condensate drains

Atlas Copco EWD 50 is a Zero Loss Automatic Drain Valve. The EWD50 is reliable, as the wide drain passageway reduces the chances of blockages. Level sensor can detect problems and activate an alarm. This drain also offers energy savings, as zero compressed air is wasted during its operations.

for Fisher NPS 4x2 through 12x8 EWD, EWS, and EWT valves (figure 1). Refer to separate manuals for instructions covering the actuator and accessories.

### Atlas Copco

The WD 80 drain valve provides completely automatic drainage of the condensate that collects at the bottom of the air receiver. The EWD drains are electronically controlled, which means they monitor condensate build-up with liquid level sensors and evacuate the condensate only when necessary, to avoid wasting compressed air.
