HiFi Engine - Owners and Service Manuals

The General Electric GE90 is a family of high-bypass turbofan aircraft engines built by GE Aviation for the Boeing 777, with thrust ratings from 81,000 to 115,000 lbf (360 to 510 kN). It entered service with British Airways in November 1995. It is one of three options for the 777-200, -200ER, and -300 versions, and the exclusive engine of the -200LR, -300ER, and 777F.

Safran Aircraft Engines is a long-standing partner to GE on the large turbofan engines powering widebody jetliners. We provide support services on the GE90 and GP7000 engine parts and modules under our responsibility, and also supply spare parts and MRO services.

Technics SH-GE90 - Manual - Digital Sound Processor - HiFi ...

After introducing composite fan blades on the GE90 engine in 1995, GE Aviation is taking the technology to a new level with the GENx. The carbon-fiber composite fan blades on the GENx engine feature a new, more efficient design, a reduced blade count (from 22 to 18 fan blades) and a composite fan case for further weight reduction.
