Palliative Care Australia is the national peak body for palliative care. Palliative Care Australia represents all those who work towards high quality palliative care for all Australians. Working closely with consumers, our member organisations and the palliative care workforce, we aim to improve access to, and promote the need for, palliative care.

[Music Therapy In Palliative Care](#)

Music therapy involves the planned, systematic application of music to improve physical and emotional health. The combined use of music and medicine may be traced back to ancient Biblical practices. Music has the power to transform lives and to bring comfort to people in challenging times. For patients receiving palliative care music therapy, if effective, can be an ideal supplement to other ...

[Music therapy in palliative care.](#)

This article reviews the empirical studies found in the literature and documents the emergence of an evidenced-based approach to the use of music therapy in hospice and palliative care. A total of 11 studies are reviewed; of these, six show significant differences supporting the use of music therapy in this area.

[Music Therapy Interventions in Palliative Care: A ...](#)

Patients with advanced cancer, receiving at-home palliative care, are subject to numerous symptoms that are changeable and often require attention, a stressful situation that also impacts on the family caregiver. It has been suggested that music therapy may benefit both the patient and the caregiver. We propose a study to analyse the efficacy and cost utility of a music intervention programme ...

[Music Therapy - Palliative Care Network of Wisconsin](#)

Music therapists are helping hospice patients and their families with therapeutic music. Musical therapy techniques not only help relax patients and lift their spirits but can also be comforting for family members and carers. Music can provoke memories and promote feelings of connectedness. Research has shown that listening to music is beneficial, significantly reducing pain, anxiety and the

[Music therapy for palliative care: A realist review](#)

What is Music Therapy? Music therapy uses the properties of music – sounds, rhythm, and personal attachment and universality of songs – for psychosocial and spiritual support and to complement other palliative care treatments. Who are Music Therapists? Most music therapists have Bachelor and Masters Degrees in music therapy and receive training in music, behavioral science, [...]

How music therapy helps terminally ... - Palliative Care NSW

The focus in palliative care is to help people live until they die, and that can look different for different people." Music therapy for palliative patients can also have different treatment goals — pain relief, relaxation, emotional expression, connection with self or family members, coping with anxiety or fears, or spiritual support.

Music therapy for palliative care: A realist review

The purpose of this integrative review was to discuss the utilization and effectiveness of music therapy as an adjunct therapy in symptom management for adult patients in palliative care and/or hospice. This review sought to extend empirical knowledge for the use of music as a therapeutic modality by determining which symptoms are most commonly treated with music interventions and how ...
