Primarily written for designers, this book argues conventions are the key to shaping information. The book claims that although we live in an information age inundated with visual language (e.g. charts, texts, graphs, illustrations, icons, screens) the structure of that language evades scholars of rhetoric, design, engineering, etc.

Shaping Information: The Rhetoric of Visual Conventions ...

Rhetoric, the principles of training communicators—those seeking to persuade or inform. In the 20th century it underwent a shift of emphasis from the speaker or writer to the auditor or reader. This article deals with rhetoric in both its traditional and its modern forms. For information on applications of rhetoric, see the articles broadcasting, communication, and propaganda.

From charts, texts, and graphs to illustrations, icons, and screens, we live in an information age saturated with visual language. Yet the underlying principles that provide structure for visual language have long eluded scholars of rhetoric, design, and engineering. To function as a language that reliably conveys meaning, visual language must embody codes that normalize its practices among ...
