SR20DET Swap Engine Harness Wiring Diagram Guide SR SR20  
The SR runs really good on thick oils. If you are driving it in the cold you might wanna stick to 10w40. If it's warm around you go with the 15w40. Go full synthetic if you can unless it's a new motor. Then use dyno oil for the first 1000 mils and then switch. Stick to good oil. Don't use Royal Purple. Use mobile of valvoline. And no fram filters.
