Tales from the Perilous Realm by J.R.R.-Tolkien

FAERIE is a perilous land, and in it are pitfalls for the unwary and dungeons for the overbold . . . The realm of fairy-story is wide and deep and high and filled with many things; all manner of beasts and birds are found there; shoreless seas and stars uncounted; beauty that is an enchantment, and an ever-present peri; both joy and sorrow as sharp as swords.

Editions of Tales from the Perilous Realm by J.R.R.-Tolkien

I personally rate The hobbit and Tales of the Perilous Realm far higher than any of Tolkiens other work, even Lord of the rings. -This book is Brilliant for Children and Adults akin, the first copy I had was simplistic and with no illustrations (which I would reccomend for any children as it is good for the imagination to invent your own version of tolkiens realm)

"Tales from the Perilous Realm" is an essential foundation for reading Tolkien's legendarium. The essay, which I recommend that one read first, provides the reader with an intellectual foundation to understand Tolkien's goals as an author and even more fundamentally, something of his view of man and of the world.

Geschreven bij Tales from the Perilous Realm. Een aardig boekje van de geweldige schrijver van de Lord of the Rings. Het is lastig in te komen en de verhalen zijn redelijk saai. Als je van poezie houdt is het misschien nog wat langer uit te houden. Ben je op zoek naar spanning, dan zal je snel afhaken.

Tales from the Perilous Realm on audiobook was a delight. It's a BBC production, done up with sound effects and theatrical narration. It makes you feel like a child listening your grandfather tell you tall tales about the fantastical. I'm so glad I chose this for 1971 book read! :) The book is the telling of four of JRR Tolkien's fairy tales.

Tales from a perilous realm, one of Tolkien's lesser known works,in truth I found it rather tedious but redeemed by the leaf by Niggle story and not without humour in fairness. Derek Jacobi's voice also seemed absolutely ideal light and more than capable of expressing both the humour & when necessary the odd time of darkness .

Perilous Realm of Faërie. In his essay "On Fairystories", to be found at the end of this book, he admits that he took no particular interest in tales of that kind as a child: they were just one of many interests. A "real taste" for them, he says, "was wakened by philology on the threshold of manhood, and quickened to full life by war".
