Transforming Education For Education as Human Capital. EDUCATION

Transformative learning theory says that the process of "perspective transformation" has three dimensions: psychological (changes in understanding of the self), convictional (revision of belief systems), and behavioral (changes in lifestyle).. Transformative learning is the expansion of consciousness through the transformation of basic worldview and specific capacities of the self ...

Transformative pedagogy involves engaged learning. It is democratic. It utilises ideas from Pablo Freire, such as dialogic education rather than “banking education“. A relevant education is not limited to a classroom, but seeks to contextualize the issues by the surrounding areas and people as parts of the learning environment.
